

الأمان الشاملة للتجارة
AL-AMAN COMPREHENSIVE TRD. CO.

About us:

Alaman Comprehensive Trd. Co. was established in Amman since 1976. Started with the name Alaman Electro-Tel Services the company started with trading and installing telecommunication networks utilities & accessories and water conservation solutions in and grew steadily to have a reputable well-known name in the field.

after years of experience, the company changed to Alaman Electro-Tel Trading Co. and has been located in Jabal Al-Hussein district and focused on trading and distributing high quality products and took the initiative to be the official distributor of well-known manufacturers in the fields of:

- Datacom & telecom cabling.
- Control and fire alarm cables.
- Data & telecom distribution cabinets.
- Electrical cables and accessories.
- Industrial sockets and plugs Cable ties, tools, & network testing devices
- Fiber Optics cabling & accessories.
- Coaxial cables.
- Data & telecom network accessories.
- Cable management systems.

The company nowadays is considered to be one of the leading role players in its fields having a big customer base in all segments: military, governmental, private, installers, and dealers gained by the reputation of high quality products and service and empowered by the ongoing expansion of the stocks level and variety. And for that, the company established a new branch in Khalda district.

And to expand the business, a new department was created with a new vision. It is concerned with the challenging Water & Energy Conservation aspect which is now considered to be the biggest concern on local international bases.

Consequently, the company started with being the first distributor for water conservation devices and fixtures and is now working under the umbrella of the reputable American worldwide water conservation leader (**Niagara Conservation**) company.

For that reason, the company has changed its name to be **Alaman Comprehensive Trd. Co. (ATC)** and provides a wide range of Niagara conservation products including water saving toilets, showerheads, mixers, sprayers, and aerators that are certified internationally by WaterSense and locally by the Royal Scientific Society and the Jordanian Ministry of Water & Irrigation.

Vision:

Alaman Comprehensive Trading Co. (ACT) is striving to be the ultimate one stop shop Distributor for Networks, IT, communications, and water conservation solutions in Jordan. Doing all that through continuous expansion in its products portfolio, services, new offices and sales outlets. ACT is always committing itself to provide customers and partners with standardized products extended by its team of experts, as well as spreading knowledge without boundaries.

Mission:
